

Project Report: Digital Comic Strip Creator

Task-1: Repository Setup & Documentation

Repository Creation: Created a GitHub repository named after my Enrollment Number: [Insert Your Enrollment Number Here].

Folder Organization: Organized the repository into two primary directories: Figma (for UI/UX designs) and Code (for development files).

Version Control: Initialized the repository with a README file and followed a structured workflow for file uploads

Task-2: Figma Prototype Design

Design Objective: Created a user-friendly interface for a "Digital Comic Strip Creator" platform that allows users to design stories visually.

Screen Details: Designed 10 comprehensive screens, including:

Landing Page: Introduction to the platform.

User Authentication: Login and Sign-up pages.

Dashboard: To manage saved comic projects.

Main Editor Canvas: The core workspace for creating strips.

Asset Library: Panels for characters, backgrounds, and objects.

Dialogue Tools: Interface for adding speech bubbles and text.

Preview Mode: To view the final layout before saving.

Export/Share Screen: Options to download or post the comic.

Profile Page: User account and saved creations.

Settings: App preferences and customization.

Output: All high-fidelity designs were exported and uploaded to the Figma folder.

Task-3 & 4: Website Development & Code Management

Technologies Used: Developed the website using HTML5, CSS3, JavaScript, jQuery, and Bootstrap 5.

Key Features: Responsive Layout: Used Bootstrap to ensure the editor works on different screen sizes.

Interactive UI: Implemented jQuery to handle dynamic actions like adding text bubbles and clearing the canvas.

Modern Styling: Applied custom CSS for a clean, creative-looking workspace.

Code Structure: Maintained clean code practices. All source files (index.html, style.css, and script.js) are stored in the Code folder.

4. Submission

The final project is hosted on GitHub. The repository link has been shared via the official Google Form provided by the Course Coordinator.
